## HARDWARE

# CLEATS & ACCESSORIES

## Neat Cleat

The Neat Cleat design offers what you've been asking for — a retractable cleat with a thin profile that installs easily on narrow gunwales.

- Beautiful, strong and durable – each stanchion is a 7/8" rod of solid enhanced #316 Stainless Steel alloy
- Cleats stay up when pulled
- Over 500,000 in use
- Backed by a Lifetime Warranty against corrosion

## Combination Neat Cleat

This great new cleat is a combination of all the best features from Neat Cleats and Flush Cleats.

Installation is simple and quick – just drill twice with an appropriate size hole saw. Drainage receptacles (included) capture moisture and send it to the bilge via pitot tubing (not included). Attwood recommends using only Stainless Steel fasteners for stainless steel hardware.

# Flush Cleats

This cleat recesses flush to the deck for a clean, contemporary look at an affordable price. Two mounting styles include an exclusive stud-mounted cleat (Patented). Water-resistant cleat recesses into cast body, and is captured with lubricated seals. Durable, enhanced cast 316 Stainless Steel construction and simple design assures long-life and dependable operation.

## Easy Installation

- Hole pattern similar to competitive models
- 1/8" stamped backing plate, for decks thicker than 1/2", is standard on all models

# Whitley Cleats

The innovative Whitley cleat is an Attwood exclusive! The unique, offset design is inspired by contemporary Euro styles. Yet, for all its good looks, this sturdy cleat exceeds ABYC strength standards!

- Polished stainless finish provides an attractive, premium appearance for the finest boats
- Alloy is certified enhanced 316 Stainless Steel. Acid and rinsing baths remove surface contaminants and produce a mirror-finish hydrous oxide film. Backed by a Lifetime Warranty against corrosion
- Stud mounting leaves no exposed fasteners to collect water or dirt
- Stainless steel locking nuts and washers are supplied to fit the concealed stainless steel studs

## Lift Ring

Attwood's stern-mounted lift ring provides heavy-duty strength for boats lifted by davits, cranes or shore stations. Lifts a maximum vertical load of 12,000 lbs. Installs with 1/2" countersunk stainless steel screws and washers, which must be through-bolted with locking washers or locking nuts.

**Warning:** Lift rings are designed to lift a boat only when fastened to the boat structure. The maximum lifting load figures listed were determined by applying a test load in the direction of the eye shank axis, with the shank fixed in an immovable testing device. Listed lifting loads are for reference only.

Description	Bulk Packaging	Aftermarket Packaging
Stainless steel lift ring	66120-1	—

\*\* -3 = Skin Pack

# LIFT RING SYSTEM

These components form a complete lifting system. When properly installed together, they can be used for lifting with an overhead crane or shore station.

## Lift Ring/Cleat Combination

316 Stainless Steel. The lift ring/cleat combination when properly installed is for lifting the boat with an overhead crane or shore station. Attach to a threaded stainless rod that is solidly anchored to the keel. When not in use for lifting, they function as a cleat. Install to deck with two #10 screws. 66098 and 66099 for threaded rod size 5/8" - 11. Installation hold size: 1".

Description	A	B	C	D	E	F	G	H	Lifts Maximum Vertical Load of:	Bulk Packaging	Aftermarket Packaging

# WATER SKI HARDWARE

## Flush Mount Ski Tow

This stainless Ski Tow mounts flush to the transom and has no exposed fasteners. Offers a clean look and prevents snags. The elliptical hook accepts up to 5/8" tow line, but rises only 1/2" outward and blends perfectly with the circular body. Easy to install by drilling one 2 1/8" diameter hole with a hole saw. The wide flange covers a bead of sealant and large aluminum backing plate provides solid holding. Backing plate and stainless locking nuts included. Exceeds American Water Ski Association standards for strength. Patented. Backed by a limited Lifetime Warranty against corrosion.

Description	Bulk Packaging	Aftermarket Packaging**
Stainless Ski Tow with 21/2" x 5" backing plate	66448-1	66448-7

## Ski Tows

Constructed of 304 stainless steel for corrosion-resistance, these tows are ideal for PWC's, I/O's, and inboard ski boats. All welded seams are smoothed and the surface has a highly polished finish. Stainless steel mounting washers and nuts included. A wide, welded-on mounting ring meets the hull so no exterior mounting plate is needed. Exceeds American Water Ski Association standards.

# Ski Pylons

## The Attwood Difference

- Our heavy duty tow products will pull you anywhere you want to go
- We have the quality hardware for almost any recreational towing need
- We offer a wide range of configurations for swivel heads, posts, and bases
- Our towing products offer advanced features for durability and quality performance
- The Pro-Swivel has a 360° rotational head with a nylon bushing for smooth slalom pulling

**DO NOT use Ski Pylons to pull any recreational equipment that is tied to the tow rope such as water tubes, aquaplanes, wakeboards, etc.**

# RAIL FITTINGS

Enhanced 316 Stainless Steel alloy fittings for attractive, highly-polished hand rails that resist corrosion and wear. Bases, tees, and elbows are available in a variety of styles and angles. For 7/8" O.D. tubing.

- The new Counterbore Rail Fittings are available for fastening with user-supplied fasteners
- Attwood recommends that all fasteners used be 300 series stainless steel
- Holes are countersunk for #10 pan head screws

## 60° Bases, Stainless Steel

Provides intermediate support or a starting/ending point for bow and stern rails. Set screw versions include 14"-28 cone point screws for connection to tubing. Counterbore versions have pre drilled holes for #10 pan head fasteners.

# HINGES

## CAST STAINLESS STEEL HINGES

These hinges are cast from enhanced 316 stainless steel. They combine a great eurostyle look with a jewel-like finish. Available in stud or countersunk mounting styles, these hinges look attractive on any vessel! Hinges are mirror polished to the highest specification in the industry and passivated to enhance surface finish and corrosion-resistance. The hinge pin design allows lid to open a full 180°.

### Round Hinge, Cast Stainless Steel

Smooth, full round plate design.

# HANDLES

## Stern Handles

Sturdy die-cast zinc with chrome finish. Dimensions: Overall length: 6". Grip length: 3-1/4". Height: 1-13/16". Four holes for required #10 fasteners.

Description	Fastener Quantity	Bulk Packaging	Aftermarket Packaging**
Die-cast zinc with chrome finish	#10 fasteners (4)	12012-1	12012-3

12012

## Vinyl Grab Handles

Streamlined with a molded, hinged, built-in fastener cover system, an Attwood exclusive. A unique, Grab Handle that looks and works great on runabouts, fishing boats, jet boats, and RV's. Clean styling, shaped to fit your hand for a secure grip. This one-piece design eliminates the problem of loose caps which pop off over time and become lost. The covers are hinged on the base of the handle and are pushed closed after securing the mounting fasteners. Strong, polypropylene inner core with a molded vinyl cover withstands harsh marine environments. Installs with two #12 fasteners. Install via thru-bolting or wood screws. Hole pattern is on 7-1/2" centers to fit most installations. Custom colors and customizing with a logo are available.

Description	Fastener Quantity	Bulk Packaging	Aftermarket Packaging**
White	#12 fasteners (2)	2050-1	2050-5
Moon Rock	#12 fasteners (2)	2052-1	—
Gray	#12 fasteners (2)	2053-1	2053-5

2050

## Flexible Grab Handles

Flexible grab handles for flush, flexible mounting. They can be mounted to a variety of irregular surfaces and angles on swim platforms, cockpits and companionways. Constructed from soft polypropylene webbing over a semi-rigid core. Available with or without an over-molded grip. Because of the soft, pliable webbing in these handles and the absence of any sharp edges, they are safe in areas where occupants might impact them. They meet the ABYC H-41 standard for strength: "withstand a load of 400 lbs. in any direction." All materials are non-corrosive, UV stable and mildew-resistant. Four holes for required #12 fasteners.

Description	Fastener Quantity	Bulk Packaging	Aftermarket Packaging**

# GAS SPRINGS & ACCESSORIES

Attwood is partnered with Stabilus®, the world's leading supplier of gas springs and related products with over 100,000,000 units in the field. All Attwood springs are made with bio-degradable no hazard to water grade oil (WGK), making them the marine industry's most environmentally friendly gas springs. All springs pass ASTM B117, Attwood Salt Spray and a 30,000 cycle lifecycle test. Attwood springs come with support to ensure the proper spring for your specific application, including: marine, industrial, agricultural, pharmaceutical, food processing, and medical. Available in 6mm, 8mm and 10mm configurations between 10-200lbs.

### Ni-Slide Series

Attwood's widest selection of configurations and lengths. The industry's proven leader in value, quality and durability.

### Boost Series

Attwood INOX Boost Series. Durable clear coat finish and stainless steel rod ensure corrosion resistance even in the harsh marine environment. All Boost Series springs come with high-strength, corrosion-proof composite end fittings.

### Stainless Standard Series

Attwood INOX Stainless Standard Series. Stainless Steel shell and rod ensure corrosion- resistance and up to 30% lower cost than traditional Stainless springs. All Stainless Standard Series springs come with high-strength, corrosion-proof composite end fittings.

# Aftermarket Gas Springs

Popular replacement gas springs and mounting brackets for the aftermarket. Attwood has taken the guess-work out of deciding which Gas Springs and Mounting Brackets to offer your Marine and RV customers. Packaged in see-through hanging packages, Gas Springs and Mounting Brackets can be plan-o-grammed together to provide an attractive one-stop display for convenient customer selection. Additional packaged gas spring sizes and output forces are available. Ask your Attwood sales rep or customer service associate for details.

# Threaded Studs

Used as an alternative to mounting brackets, threaded studs can be mounted directly to hatches or other mounting surfaces in applications where the mounting surface is made of metal or another material with the strength to withstand the forces of a gas spring attachment point

## Choice of Attachment Points and Finish

Threaded studs are available with "Ball" or "Blade" Gas Spring attachment points, and a choice of materials, including zinc plated steel, or stainless steel.

Finish	Length	Bulk Packaging	Aftermarket Packaging**

# MOUNTING BRACKETS

Mounting Brackets are used as attachment points for gas springs on hatches and other mounting surfaces where:

- Mounting surface material is not strong enough to support direct attachment of gas spring using a threaded stud
- The angle and position of the attachment point requires the need for a mounting bracket

## Choice of Pem Attachment Ball Pem Points and Finish

Mounting brackets are available with Blade Pem or Ball Pem gas spring attachment points, and a choice of materials and finishes, including zinc plated steel (with or without black painted finish), stainless steel, or aluminum.

† Maximum safe load is approximately half of maximum load or break strength.  
Do not exceed maximum safe load. Do not use in applications where life or limb is at risk.  
\*\* L3/-3 = Skin Pack

## Clamp-On Oarlocks

Zinc-plated steel resists rust. Oarlock fastens securely to oar with one adjustable bolt, no drilling required.

Description	Bulk Packaging	Aftermarket Packaging**
Shank 1/2"-dia. x 2"	—	9146-3

9146

## Pin-Type Oarlocks

Fits up to 13/4"-diameter oar shaft. Also accepts 2" oar shaft when flats are added. Durable ZAMAK with either chrome-plated finish, or unplated finish dipped in Dri-Touch protectant.

Description	Shank	Bulk Packaging	Aftermarket Packaging**
Chrome-plated ZAMAK	1/2" dia.	—	9140A3
Unplated ZAMAK	1/2" dia.	—	9140B3

9140A

## Side Flush Mount Oarlock Sockets, Zinc

Accepts 9140, 9140B, or any oarlock with 1/2" shank. Features Delrin bushing that is an integral part of the assembly. Bushing provides silent operation. Socket constructed of durable ZAMAK with either chrome-plated finish or unplated finish dipped in Dri-Touch protectant.

Description	Bulk Packaging	Aftermarket Packaging**
Chrome-plated ZAMAK	—	9142A3
Unplated ZAMAK	—	9142B3

9142A

## Flats Boat Pole Holder

This convenient holder safely stows a flats boats push pole. When pole is removed, the holder's retaining hook conveniently drops below the deck to eliminate snagging hazards. Value-packed pole holder has an updated look and a smaller footprint than competitive models. The body is strong, corrosion-resistant, 316 stainless steel alloy. Retaining hooks are molded UVresistant resin. Typical installation requires 3 pole holders. Four holes for required #12 fasteners. Optional drainage receptacle mounts beneath the pole holder to drain off water into 3/8" I.D.hose (hose not included).

Description	Installation Holes Size	Fastener Quantity	Bulk Packaging	Aftermarket Packaging
Flats boat pole holder	3-1/2" x 1-1/4" x 3" deep	#12 Fasteners (4)	66346-1	—
Drainage receptacle	3-3/4" x 1-1/2" x 4" deep	#12 Fasteners (4)	1492-1	—
